EXPERIENCE

Frontend Software Developer Intern

Rehnuma Welfare Foundation, Aug 2023 - Feb 2024

- Led frontend development for a donation mobile app in a 4-person team, covering login, signup, home, event, student info, searching, and direct donation features.
- Independently implemented donation logic and ensured seamless backend integration.
- Applied responsive design principles for optimal mobile experience.
- Collaborated closely with team to meet project deadlines and honed problem-solving skills in a fast-paced environment.

Frontend and Backend Developer - Sponsored Project

Surat Collection Shop, March-2024

- Developed a comprehensive e-commerce website for Surat Collection, encompassing both frontend and backend functionalities.
- Designed and implemented key features allowing shop owners to create catalogs of items, manage inventory effectively, and generate invoices seamlessly.
- Implemented a user-friendly interface enabling customers to browse items, add them to their cart, complete purchases, and explore newly added catalogs.
- Leveraged both frontend and backend technologies to ensure smooth operation and optimal user experience.

PROJECTS

Chat App: Created a **real-time chat application** using **React** and **Node.js** for seamless communication among users. Implemented features such as user authentication, message threading, and notifications. ([Try it here](#))

Cryptocurrency App: Developed a cryptocurrency tracking app using **React** and integrated it with **Chakra UI** for a sleek and user-friendly design. Utilized external APIs to fetch real-time data and display cryptocurrency prices and trends. ([Try it here](#))

Weather App: Developed a responsive weather application utilizing **React.js**, fetching real-time weather data from the OpenWeather API. Users can view current weather conditions in both Celsius and Fahrenheit, along with 7-day forecasting, wind speed, and humidity information. ([Try it here](#))

SKILLS

Web Technologies:	React.js, React Native, JavaScript (ES6), HTML5, CSS3/SCSS
Database:	MongoDB, MySQL
Programming Languages:	Java, Python, C / C++
Soft Skills:	Time Management, Public Speaking, Team Player, Fast Learner

EDUCATION

BTech Information Technology, Government College Of Engineering Aurangabad
Current CGPA: 8.014

Expected July-2024
